

FIG. 1

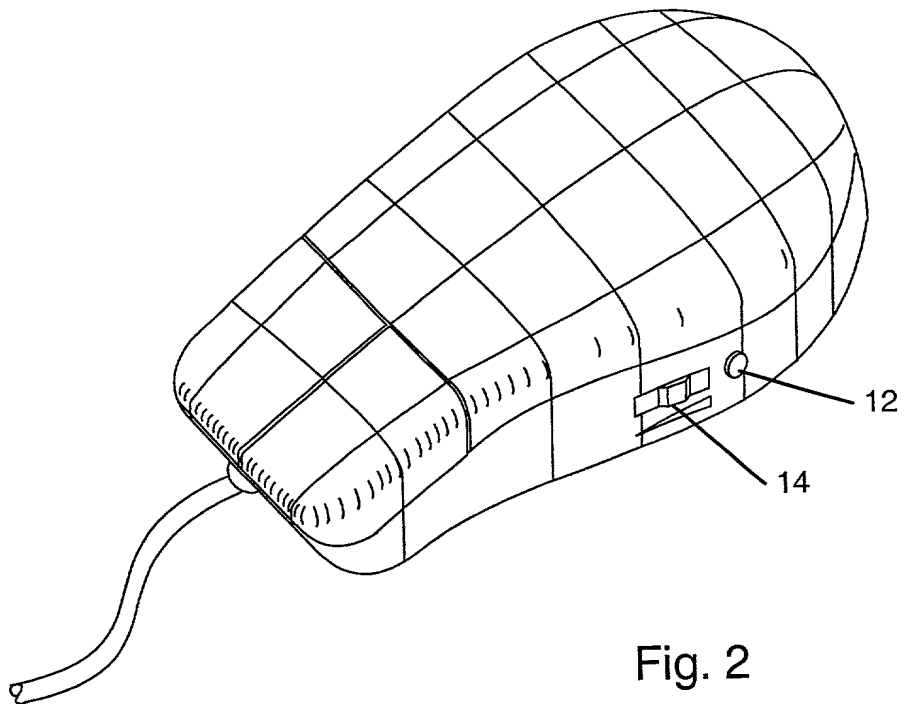

Fig. 2

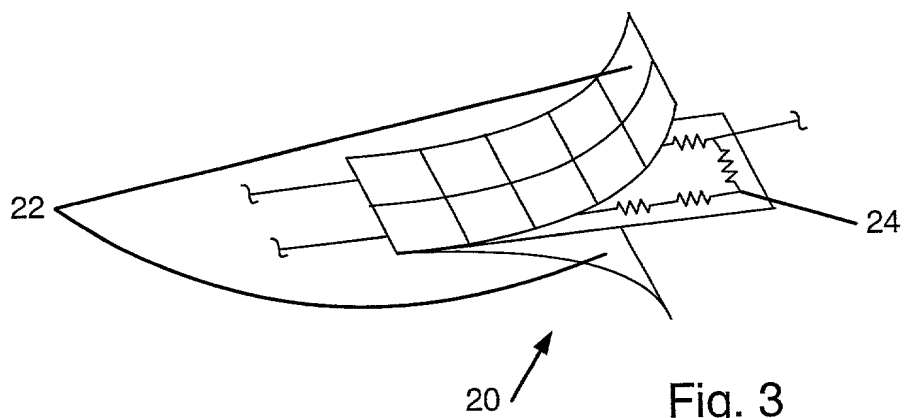

Fig. 3

A schematic diagram of a device 30. The device is represented by a large rectangular frame. Inside this frame, there is a smaller rectangular loop. At the bottom of this inner loop is a zigzag line, labeled 32, which is connected to the loop's wires. Below the inner loop, within the main frame, are two components: a rectangle labeled 38 on the left and a circle labeled 36 on the right. A curved line, labeled 162, extends upwards from the top of the inner loop and exits the main frame.
